Summary

Computer Science undergraduate with hands-on experience in full-stack development using Java, Python, JavaScript, and React.js. Experienced in developing IoT, web, and machine learning applications end-to-end. Developed an award-winning smart traffic management system recognized at IIT Madras. Strong foundation in software development, problem-solving, and application development. Proficient in English, Kannada, and Malayalam.

Technical Skills

- **Languages:** Python, Java, JavaScript
- **Web & Frameworks:** React.js, HTML, CSS
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** GitHub, VS Code, Eclipse, Postman
- **Other:** IoT systems Basic, Machine Learning / NLP (BERT, SVM).

Projects

Green Corridor – Smart Ambulance Traffic Management System

2025-26

- Engineered an IoT-enabled traffic system that automatically prioritizes emergency signals for ambulances, reducing manual intervention in real-time traffic control
- Built a full tracking and admin control dashboard with React and MongoDB for live monitoring of vehicle routes and signal status
- Won 2nd Prize in the IT Sector at PALS Innowah 2025, IIT Madras, out of a national field of competing teams

Family Nursery Management System

2026

React.js, Node.js, Express.js, MongoDB

- Designed and developed a full-stack inventory, sales, and staff management platform with role-based admin and staff dashboards
- Implemented automated low-stock alerts, plant-loss tracking, service reminders, and profit-tracking analytics to streamline daily operations

Education

Bachelor of Engineering, Computer Science & Engineering

Expected 2027

Maharaja Institute of Technology, Thandavapura, Mysore

Diploma, Computer Science & Engineering

2024

Government CPC Polytechnic, Mysore – CGPA: 8.1

Certifications

- Python Programming – Edu Pyramids, SINE, IIT Bombay
- MongoDB – ICT Academy
- Google Cloud Career Launchpad – Cloud Engineer Track
- Machine Learning for Engineering and Science Applications – NPTEL

Achievement

- **2nd Prize – IT Sector**, PALS InnoWAH 2025, IIT Madras.
- **Selected for Nirmaan ITTM Pre-Incubation Program** for startup development and innovation.
- **Selected for Smart India Hackathon (SIH) 2026 Internal Hackathon.**
- **Patent Application Filed** for an IoT-based Smart Ambulance Traffic Management System.
- **Developed an IoT-based Smart Ambulance Traffic Management System** using GPS, LoRa, and ESP32 for emergency traffic management.
- **Participated in Innovation and Technology Competitions** focused on real-world problem solving and product development.
